

The Gleichen Call.

Devoted to the Up-Building of Gleichen and the Development of the District Generally

Year I., No. 49.

GLEICHEN, ALBERTA, THURSDAY, FEBRUARY 20, 1908.

\$1.50 Per Year

FIRST OF DUTCH COLONY ARRIVES

Yesterday the first of the colony of Hollanders arrived in Gleichen to take a look over the town and district, as a direct result of Father Van Akin's work, who was here last fall prospecting with a view to locating a colony. The three men who are in town are very intelligent appearing gentlemen and if they are typical of the many to follow this spring then the district is most fortunate in securing good settlers. They have already visited other points of the district and the Calgary Albertan has this to say of them:

Early last fall Father Van Akin, on behalf of a farmers co-operative society of Holland, came to Calgary for the purpose of arranging with the C. P. R. Irrigation company for a tract of land on which to settle a large Dutch colony. Satisfactory arrangements were completed, and yesterday the first members of the colony arrived in the persons of W. Schlitz, A. Storis and E. R. Viste, all of Lelapen, Holland.

They carried a letter of introduction to Ald. Moodie from Father Van Akin, and intend settling in this neighborhood for a short time until arrangements are completed for their taking upland in the irrigation belt. They stated that 28 brother countrymen came over on the same boat, and will reach Calgary this morning.

These people will make the best possible citizens of Alberta, as they are expert growers of sugar beets and have the art of irrigation down to science. In all there will probably be over 500 Hollanders out this spring in the Strathmore district.

J. W. D. STERLING WAS DISMISSED

Proved he Was Not The Man Wanted
in Dublin, Ireland

J. W. D. Sterling, who was arrested by the Mounted Police on Tuesday of last week and thought to be the man wanted in Ireland for embezzling \$20,000, is now back in Gleichen filling his position at the Gleichen Hotel.

When Mr. Sterling reached Calgary he communicated with an old friend living there, Mr. and Mrs. Barnard, who at once stated they had known him for 20 years, and that he could not be the man wanted.

The Calgary Herald speaking of the case said:

"The man Sterling who has been held in custody at the barracks for the last day or two was brought up this morning by the N. W. M. P. before Magistrate Smith and dismissed, the alleged fugitive from justice having proved to the police that he is not the man wanted. The real culprit left Dublin in Oct. 1907, whilst Sterling has now discovered in his bag his old ticket and vaccination certificate showing he entered Canada in March, 1906, a clear alibi. The police will take him back to Gleichen."

The Call joins Mr. Sterling's friends in a desire to make it known that he is innocent of any such deeds as he was charged with and is extremely glad we did not report the many stories circulated concerning him.

Hard on Small Customers

A Winnipeg dispatch states that the Northwestern Supply House, Limited, which is now in liquidation, and the manager of which is under heavy bonds to appear at the spring assizes to answer to a charge of embezzling \$100,000, is now in the hands of the liquidators.

ers to whom he catered, is in a hopeless state, judging from the stand point of the hundreds of creditors scattered throughout Western Canada. Indications are that they will not receive a cent; indeed the assets are not sufficient to pay the assignees an 10 cent charge.

The Traders' Bank, one of the largest creditors, was secured by the best collateral. Among the trading houses in Winnipeg and eastern Canada, who supplied this institution with goods, no doubt without being aware of the methods of operation or the unfair competition it waged with reputable merchants throughout the west.

One of the most regrettable features of the whole affair is the large number of small customers who have been bitten for small individual amounts, which may mean much to those in struggling circumstances.

ONE WAY TO TEST IT

Calgary Morning Albertan:

The Gleichen Call intimates that Gleichen is prepared to show at the Dominion Exhibition that Gleichen is the most promising district in Alberta, agriculturally, and accordingly has greater claims for the agricultural college than any other town or district. A test of this kind should be of some assistance to the men who are to select the site for the institution.

In such a case it is very difficult to say at once if the Dominion Fair will be able to accommodate all the districts which are after greater prize. However, this would be one way of getting a worthy agricultural exhibition.

If it is given out by Manager Richardson, who has already communicated with the cabinet ministers, that the district which makes the best display is sure of selection, then out of the west and the east and north and south will come exhibits worthy of the province. The idea is a good one.

And while dealing with the agricultural college question, it might be well to remark that the Gleichen Call is wise in attempting to confine the Gleichen bid for this big prize to one entry. At present Gleichen, Langdon and Strathmore are in the running. If there is competition in this no Gleichen district is likely to win out. As Gleichen was the first to make an effort to get the college, as it has been endorsed by the member for the district and the Calgary board of trade, which may or may not have much influence in matters of this kind, and seems to be endorsed by the C. P. R., which can materially aid such an institution, it would seem that it would be the wise thing for the other competitors in the Gleichen riding to withdraw in favor of Gleichen town.

Queenstown Happenings

S. Hellerang is around on his pin again.

J. B. Leggat, representing the Deering and Cockburn implement companies was through here last week doing a little canvassing.

W. W. Robertson and A. Wyrick took some loads of grain to the city Monday. Ole Neilson made a trip to the city and back Monday.

J. Hugwood came down from Gleichen Monday.

F. E. Robertson has obtained a fine well of water at a depth of 120 feet.

Quite a number of Queenstown young folks took in the Gleichen masquerade, among them being, Mr. and Mrs. A. H. Olson, Miss S. Brown, Miss A. Snuff, and Messrs C. McIntyre, A. Brown, J. Snuff, B. Brown, D. Hardwick, and D. Brown, and it pleasing to know that the winter was awarded that prize for being the best.

MASQUERADE BALL WAS A SUCCESS

The masquerade ball given under the auspices of the Social Club Friday evening may well be termed a success in every sense of the word, to the credit of Manager Kilcup. The hall was crowded with spectators and maskers. On the stage several rows of seats were provided for the spectators, which were soon filled with big and little nightseers, while many more were obliged to stand wherever they could find a vacant corner.

The floor was in the best condition it ever was and the members of the Gleichen Orchestra simply excelled themselves. The decorations of the hall was in keeping with the gay scene.

Shortly before 9 o'clock the maskers began to arrive and then the fun started guessing who was who and what each represented, which increased with each new arrival. Then it was seen that no pains or cost had been spared in the many and varied costumes, making them entirely beyond the writer's descriptive powers.

Promptly on time the grand March was called, followed by an excellent program of dances, but the maskers were not over alert in filling up engagements ahead until after the unmasking, which took place at 12 o'clock, when the climax of the evening's enjoyment was reached and the big laugh came.

The judges, comprising Miss Tingle and Messrs. Gordon and Evans, had a most difficult task to perform, but finally awarded the prizes as follows:

Best Lady's Costume, Miss Flora Renaud, as "Folly".

Best Gentleman's Costume, Mr. David A. Brown, as "Louis the XV."

Most Comic Lady's Costume, Mrs. Evans, as "Folly".

Most Comic Gentleman's Costume, Mr. Thom. Fisher, as "Little Willie".

Had the judges been allowed to decide after the masks had been removed there is no doubt that Mrs. Harrison would have been awarded a prize as "Flower Girl". While she is small of stature it seemed incredible that she could dress to represent and carry out so well the part of a little girl; and when it is considered, as she says, with pardonable pride, "to think I am fifty-six years of age".

Upwards of 200 people participated in the splendid luncheon served shortly after mid-night, and then dancing was resumed and continued until 5 a. m.

Appended is a list of the maskers and their costumes:

P. Rochon was down from Shepard on Tuesday transacting business. He is very content of Shepard making a good town in the near future and accordingly has invested heavily at that place.

The case of John and Elgar Bennion is on the docket for the supreme court now open in Calgary and several Indian witnesses have gone up from Gleichen. There are seven charges entered against these men for cattle stealing.

Gopher Johnny, Gleichen's mascot, went to Medicine Hat hospital last week by the Council, owing to his severe illness. A subscription list was circulated by J. M. Telford and liberally subscribed to for the purpose.

The debentures for the new Shamrock public school, north of town, have been sold, the lumber bought and last week work on the construction of the building was started. This will prove a great benefit to the farmers in that vicinity.

W. R. McKie, manager of the Bank of Commerce, went up to Calgary Tuesday morning to attend Supreme Court as a witness on Carl J. Danielson's case who is charged with obtaining money under false pretenses. The accused was in Gleichen last fall and failed in his attempt to get money at the bank here.

Dr. Lake, the Calgary dentist, spent Saturday in town and proved to his own satisfaction the efficiency of The Call as an advertising medium. He stated he got a great deal more work than he had even hoped for and would have to come down again on the 29th. The doctor is a firm believer in the use of printer's ink and in the presence of several of our business men said that in all his advertising he was positive he had never spent one dollar that did not return him ten. However, it is only fair to say that the large portion of the doctor's success in advertising is to his own credit. He writes good copy, he asks for plenty of display, he lets the printer use some judgment, and most important of all he "delivers the goods" just as he advertises them.

Gleichen, Alberta, February 20, 1908.

The Call firmly believes that the Gleichen District can make an exhibit at
the Dominion Exhibition at Calgary next summer that will prove this district the
very best location for the Agricultural College; and, more, we have faith enough
in the enterprise of the people of this district to believe that they will make the
exhibit. We are aware that this is claiming a great deal, but the results of last
year's crops in this district warrants the statement—although it is admitted that
last year was not an average year for agricultural products throughout the west.

The best bank ever known is a bank of earth; it never
refuses to discount to honest labor. The best share is the
plowshare, on which dividends are always liberal.—Ex.

W. J. Elliott, head of the dairy department of the
Agricultural Experiment Station, Bozeman, Montana, has
written another letter from which we quote:

"I believe that it is the intention of the Alberta Gov-
ernment to institute both an agricultural college and a
university; and they make the mistake in thinking these
two institutions can be located successfully at the same
place. This is an absolute mistake, as a great many of the
American institutions are finding out to their sorrow and
cost. Where these two institutions are located at the same
place the agricultural students are jibed and jeered at, and
a great many of them rather than stand the taunts are led
into other lines than agriculture. The whole bearing of
the university toward such students is that agriculture is a
disgrace. Thus the proposed college is defeated on the
start.

"The State of California is finding this out to her sor-
row and is spending one million dollars to move the
college away from the university which is now situated at
Berkeley.

"The very thing that has made the Agricultural Col-
lege at Guelph, Ontario, the peer of agricultural colleges,
is the fact that her text has been agriculture pure and
simple, and no other influence was allowed to creep in—
either to taunt the students or win them away to other
callings."

The young man with limited means, who has but a few
hundred dollars to begin life with, or perhaps has nothing
but a pair of strong and willing hands, we would say to all
such young men that the farm is the best place in the
world, and that there will be plenty of farm work in this
district at all times. Do not be afraid of toil but set an
example to the weak, lazy loiterer about town by putting
your hand to the plow.

If you are a young married man then the farm offers
still greater inducements. We know it will cost your
young wife some pangs to separate from friends and home
in the town, but if she is a true woman she will do it with-
out a murmur, for the battle of life is an earnest one, and
we must each sustain our part. Do not expect to begin
your married life in the same style that your father and
mother are now enjoying in their old age, with the fruits
of many years of toil; but be contented to begin humbly.

Plant and sow and reap; build your dwellings, and
garnish them about with fruits and flowers; promote agri-
culture, one of the great institutions of God; and when your
sons and daughters grow up like olive plants around your
table, while you fail not to remember their physical wants,
remember also to supply the intellectual food the mind
craves; let them have good books and papers and proper
recreation, that they may not imbibe the false notion that
farming is drudgery and every farmer and farmer's wife a
drudge.

As we look about us how many sons and daughters of
wealthy farmers we see who despise their surroundings, and
only look on "father" as a very necessary machine to coin
money for their expenditure, and "mother", who has
labored for them every day since they were born, as a very
useful automaton for doing cooking and general work.

When you are tilling the rich soil think how much
worthier is the cause you are prosecuting than to crowd
into some already over-stocked business or profession in
your home town, with only one object in view—to have
white hands and immaculate clothing, and to be always
struggling with your limited means to keep up with those
in outward seeming who are much wealthier than you are.

A Card of Thanks

I desire to thank the good people of Gleichen for their generosity in subscribing to the list which I took around last week to aid Gopher Johnny in his illness and sending him to the Medicine Hat hospital. The total subscription amounted to \$27, which was all that was required and I wish to say that every person I asked to subscribe did it without hesitation, save Mr. E. Griesbach.

J. M. TELFORD

Miss Burne has decided to start in the millinery business in Gleichen and announces she is now prepared make new shapes, make over and trim hats of all kinds.

The regular meetings of the Gleichen and District Board of Trade are held the second Tuesday of each month at 8 p.m. The next meeting takes place on March 10th.

Taking care of money is almost as hard work as earning it.

His Satanic majesty is always getting something for nothing.

\$12.50 about Half the Regular Price.

The plate that I am offering for \$12.50 is one of the best values I have ever given the public. The teeth are the best possible to secure, the rubber a pure, strong, maroon product, fully warranted to me, and without doubt the best I could buy. Really if I was charging twice the amount I could not turn out a better article. They are made to fit, and the arrangement and color of the teeth produce a natural and aesthetic appearance.

Crown and Bridge-Work.

Placing the price of Crown and Bridge-Work at \$1.00 a tooth puts this work within the reach of every person who is in need of such. No person ever went out of my office with this work in their mouth who later came back dissatisfied. The reason of this is that the right kind of bridging is always done in my office. I have been doing bridging and crowning for a number of years, have a natural skill for mechanics, and have all the necessary appliances for perfect work. When one has these possibilities within their hand, good results are as easy as pie. All the work is guaranteed.

The good people of Gleichen have demonstrated that they will patronize a good Dentist. I am glad, flattered with the patronage given me last Saturday, and would be delighted if I could honestly promise to give as good satisfaction in an office there as I can in the big home office. There is a limit to good, quick and reliable work in a small office, and I have made my prices so as to attract people from the district to my office in Calgary. I never have promised what I could not perform, and I am not going to start at this time in life.

It Will Pay You Better to Come to Calgary.

If you have a big bill of work to be done you can be sure that if the facilities are perfect the work can be done quicker and cheaper than possible in a small office. The standard of work must be maintained. I would not hedge on that, and am selling my time. You can glean the inference. Whatever work I can do in Gleichen as well as I can do it in the big office I will be glad to attempt, but I would urge that whenever the bill is run over four hours work that the people come to Calgary.

For the future immediately before us I will carry out my program, after that I am going to try to induce you to come into the big office.
